hSenid Consulting Practices

MySQL Outsourcing Practice

hSenid is a MySQL Enterprise Gold Partner and has years of experience in developing and deploying (mission critical, high performance, telco grade) applications with MySQL. Our MySQL certified teams are well geared to share their expertise and knowledge with you either via training, consulting, implementation or providing support for existing systems.

Java Technology Practice

hSenid's telco grade mobile solutions has over a decade of experience in providing Java based mobile solutions to leading telcos, financial institutes and other enterprises world wide. This experience, exposure and knowledge have made us the professionals in Java and all Java related technologies.

Microsoft Technologies Practice

hSenid is a Microsoft Gold Certified Partner for ISV/ Software Solutions, Data Management Solutions and Business Process and Integration. The Microsoft Experts at hSenid has a vast knowledge of experience in product development, customized software developments and hosting, bringing the best in class business processes for your organization.

Open Source Practice

In the ever changing world, remaining competitive, profitable and cutting edge requires that companies embrace innovation with controlled costs and flexibility. Open source systems give your business a lot more flexibility to determine the software you deploy and where to allocate your IT dollars, both in terms of the initial investment and as an ongoing service offering that helps keep new investments to a minimum. hSenid has the capability to offer application migrations from Oracle to MySQL, Windows to Linux, Consultancy in architecting portable solutions, migrating proprietary application servers to open source application servers such as Jboss.
